

Awakening Eden

Illustration Bible v1.2

An original visual language of sun, soil, water, roots, people, plants and precise sacred geometry.

Everything is in relationship.

Illustrations do not merely decorate text. They reveal connections: sun to photosynthesis, water to roots, roots to fungi, seed to succession, human attention to land and learning to action.

Observed nature

Mediterranean botany, soil layers, water movement, seeds, fungi, pollinators and real relationships.

Human warmth

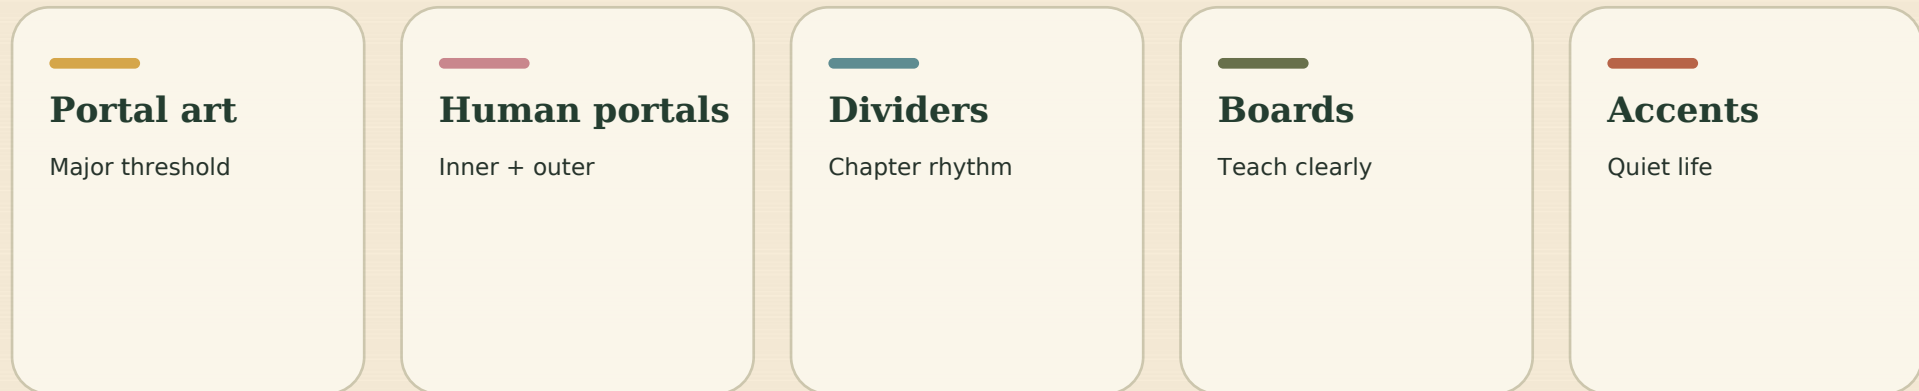

Hand ink, pigment granulation, imperfect symmetry, calm faces and genuine working gestures.

Sacred precision

Exact circle geometry may appear as a foundation, never as vague pseudo-geometry or a scientific claim.

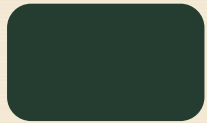

One hand, different jobs.

Portal art is rare. Educational boards prioritize accuracy. Accents remain simple enough to disappear when content needs attention.

MASTER PALETTE

Pigment should feel grown, not sprayed.

Forest

Teal

Moss

Parchment

Terracotta

Honey

Rose

Lavender

Use translucent washes, warm paper, forest ink and restrained highlights. Preserve small variations in line and pigment. Avoid neon, glossy gradients, metallic 3D, synthetic bloom and galaxy backgrounds.

Light illustration

Parchment base, forest line, honey + terracotta warmth, water teal movement.

Night illustration

Deep forest base, parchment line, muted lavender, teal and small honey accents.

PORTAL 01

Solar Tree-Heart-Lotus

Role: awakening, land regeneration, the homepage threshold and flagship guides.

Required symbols: one sun, flowering tree, heartwood heart, roots, exact twelve-petal Lotus of Life, botanical lotus, seeds, water and one hummingbird.

Let the portal open; do not wallpaper the site.

Use

Homepage, Start Here, major guide cover, event threshold or final exhibition panel.

Crop

Use 4:5 full art. On wide layouts, place as a sidecar; never crop out the heart, geometry or lotus.

Alt text

Describe visible symbols and relationship without claiming healing, frequency or scientific effects.

Maximum: one major painted portal per page. Header and footer use the simplified vector mark.

Rooted Human / Living Earth

Role: inner-outer regeneration, Heart, Sofia's path, breath, embodiment, relationship and the human side of the Library.

Required: dignified human, rose heart, seed at belly, roots from the body's base, exact twelve-petal Lotus of Life, botanical lotus and water.

Relationship, not spiritual performance.

Human dignity

Natural anatomy and hands, calm presence, unforced expression and no culturally specific ceremonial costume.

Living connection

Plants may grow around or through the figure without obscuring identity or turning the body into ornament.

Use

Heart, about, Sofia, community reflection and inner-outer chapter thresholds. Not every wellness card.

Prefer one person or a real human scene. Avoid generic ecstatic poses, perfect bodies and fake enlightenment imagery.

Flowing Suns / Living Codes

Role: transition between major chapters. Three solar moments move through water, flowers, roots, seeds and pollinator paths. Use once on a long page, never between every section.

Exact first. Organic integration second.

Lotus of Life - the only master geometry

Twelve equal circles; centres at 30-degree intervals on one orbit; each circle passes through the same origin, creating twelve interwoven petals. Use for awakening, relationship, living systems and embodied potential.

Do not substitute Seed of Life or Flower of Life. Geometry may pass behind roots or water, but its centre, twelve petals and circular construction must remain legible.

A visual language, not a medical claim.

Poetic

Living lines, portals, codes and earth frequencies are acceptable artistic language.

Factual

Do not claim that geometry changes DNA, treats disease or alters measurable frequencies without evidence.

Original

Do not trace VECA/Kathara, Indigenous, religious or living-artist work. Verify origin and permission before adaptation.

Nature's circles, spirals, branching, networks and cycles are the generative source.

Every symbol has a job.

Sun

Awakening + photosynthesis

Tree-heart

Core identity + interbeing

Lotus

Emergence through water + soil

Seed

Potential + next action

Roots

Hidden relationship + continuity

Water

Movement + retention + renewal

Hummingbird

Joy + living intelligence

Fungi

Exchange + decomposition

Mediterranean life, observed with care.

- Olive - longevity, food and dryland resilience
- Fig - abundance and shade
- Rosemary + lavender - aromatic edges and pollinators
- Fern - unfolding and moisture
- Wildflowers - diversity and joy
- Mushrooms - decomposition and hidden networks

Botanical accuracy matters most in educational art. Portal art can be symbolic, but plants should remain plausible and recognisable.

Human-made, not artificially distressed.

Ink

Warm forest or soil line; variable pressure; rounded joins; no harsh pure-black vector outline.

Pigment

Translucent watercolor, slight granulation, controlled earth colour and visible paper.

Edges

Major portal: soft breathing space. Divider: fade left and right. Icons: clean silhouette, no texture noise.

Avoid fake photocopy grain, random scratches, muddy low contrast and over-sharpened watercolor.

Design the crop, not just the file.

Mobile 4:5

Show the whole relationship: sun, heart, geometry and lotus. Use 480 or 800 px source.

Desktop sidecar

Keep full portal beside text. Do not use a giant background that weakens readability.

Divider

Use 640/1280/1600 sources. Keep main symbols within the central safe 70% for smaller crops.

AVIF first, WebP fallback. Declare width and height. Only the true hero is eager and high priority.

ASSET NAMING

Names explain role, not mood alone.

Masters never load on the public page. Production uses responsive derivatives only.

Before anything becomes public.

- **No accidental text or watermark**
- **No copied cultural motif**
- **Geometry construction verified**
- **Botanical details plausible**
- **Hands and anatomy dignified**
- **Focal symbol survives mobile**
- **No essential text baked into art**
- **Alt text describes, not claims**
- **Correct responsive sizes**
- **Master excluded from production**

CLOSING RULE

Let the art return attention to life.

If an illustration is beautiful but makes the page slower, less readable, less truthful or less useful, simplify it.
The deepest visual frequency is relationship made visible.
