

Awakening Eden Living Library

Books, movies, documentaries, spiritual teachers and regenerative channels that shaped our way of living and acting in the world — and helped us keep our hope and faith high.

We believe a more beautiful world is not just something we wait for. It is something we grow—from within, through love, through community, and together as one family of life.

Prepared with love by Benjy & Sofia · Awakening Eden · a Living Library for
Positive Change, Regeneration & Remembering

Before you continue

May these books, movies, documentaries, spiritual teachers and regenerative channels strengthen your hope, nourish your curiosity, and remind you that every small act of regeneration creates ripples far beyond what we can see.

The no-burnout pact

- We do not use films to shame ourselves or others.
- We let grief move through the body without making it our whole identity.
- We choose one practical action before choosing ten impossible ones.
- We rest, laugh, eat, breathe, dance, plant and repair relationships as part of regeneration.

Watch. Read. Listen. Learn. Breathe. Discuss. Act. Rest. Repeat.
