AWAKENING EDEN

Living Resource Library

Films, books, channels, teachers, projects and practical hope.

A curated companion for inner and outer regeneration

Watch one film. Read one page. Try one action.

Created with care by Benjy & Sofia

BEGIN HERE

Choose one doorway.

This library is not something to finish. It is a place to return to when you need hope, practical wisdom, inspiration, or a reminder that regeneration is already happening.

Start with one resource that gives you energy. Notice what you learn. Then translate that spark into one grounded action in your life, land, work or community.

Feeling overwhelmed?

Watch one film. Read one chapter. Join one community. Plant one seed. Small steps create big ripples.

A note on discernment

Some resources in this library are scientific, some practical, some philosophical, and some spiritual. We invite curiosity with humility: seek evidence where claims matter, honour lived wisdom, and choose the most life-serving next step available.
